

MAX

table series

DESIGN

The MAX series imaging tables are a cantilevered (diving board) style design with bellows. The "H" style base allows maximum C-Arm clearance along the entire cantilevered length.

MEDICAL SPECIALTIES SUPPORTED:

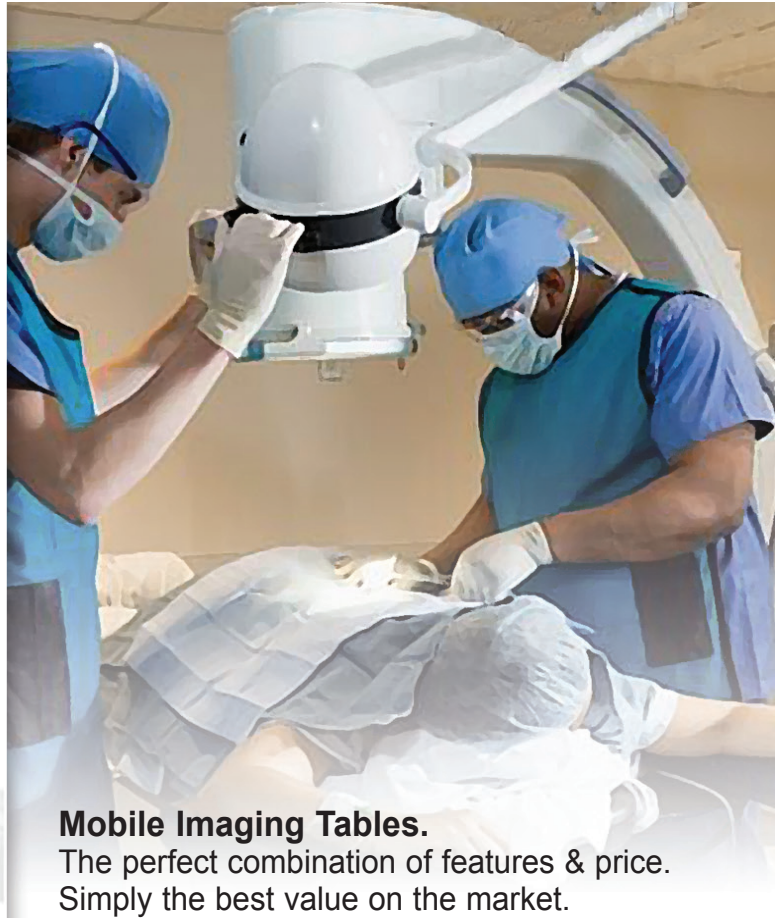

- Pain Management
- Minimally Invasive Spine Surgery
- GI Procedures
- Ultrasound Procedures
- Orthopedic
- Endovascular
- Gall Bladder
- X-Ray Procedures

BENEFITS

The Max table comes with standard 500 pound load rating, 2" patient pad, 24" wide top, locking swivel castors, narrow base for easy patient transfer, simultaneous motion movements and extremely low boarding height. Also with bellows, power input block & removeable power cord

BEST CHOICE

The MAX table has the highest patient weight load rating at the best price! The Max series is the best value on the market with many other user friendly options available.

Mobile Imaging Tables.

The perfect combination of features & price. Simply the best value on the market.
